Comments regarding question 9:

none

Comments regarding question 14:

Due to the late arrival of the flip cameras, the technology teachers were not able to have students create a tobacco prevention PSA. They are equipped and ready to work on this project with students for Red Ribbon Week.

Comments regarding question 17:

As stated previously, due to the equipment arriving too late in the school year the media literacy/youth media production PSA project was not completed. Teachers are equipped and ready to start on this project in the fall.

Comments regarding question 19:

none

Comments regarding question 22:

none

Comments regarding question 24:

Posters from the California's Smoker's Helpline were posted in all school nurse offices, staff lounges, and counselor offices to promote how students and staff can get help to stop smoking. Posters were visible to all of the student body. We don't have records of which if any students utilized the helpline.

2012/13 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 27:

Posters from the California Smoker's Helpline were posted in all school nurse offices, staff lounges, and counseling offices to promote how students and staff can get help to stop smoking. Posters were visible to all of the student body so we used the ethnic breakdown for the entire student body. We don't have records of which if any students utilized the helpline. Our low SES percentage district wide is 27% so we estimate approximately 800 of the students at the middle school qualify as low SES.

Comments regarding question 29:

none

Comments regarding question 31:

Only one new teacher needed to be trained in Project ALERT. All other teachers were already recently trained.

2012/13 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 34:

Our district policy regarding tobacco is included in the District's Annual Notification which is provided to every parent in the district. If at least one parent of middle school students read the notification we estimate close to 3000 parents were provided with this general TUPE information.

Comments regarding question 37:

Our community coalition CARE Council plays a vital role in collaborating and coordinating substance use prevention, including tobacco prevention efforts. This coalition is comprised of members of our LEA (principals, teachers, parents), our local Public Health office, City of Whittier youth services staff, and community agencies including Los Angeles Centers for Alcohol and Drug Abuse (our partner for cessation activities). TUPE activities are discussed and reviewed at coalition meetings. Cessation activities include a partnership with LACADA.
