Comments regarding question 14:

\*\* On an annual basis, FCUSD promotes participation in Tobacco Retail Licensing/youth purchase survey-Sacramento county based survey (coordination by Lea Huffman). Huffman recruited youth participants from one school site/district rather than multiples districts this year; thus, no FCUSD students participated this calendar year. \*\* Comment 2 –regarding youth involvement in anti tobacco advocacy: FCUSD utilizes Friday Night Live & Club Live for a variety of tobacco advocacy strategies. Participating students is lower than projected number of students since FCUSD has only tracked the # of club leaders and not the chapter members (whose attendance may vary throughout the year as compared to leaders who tend to be more consistent – attend weekly meetings throughout the school year)

Comments regarding question 17:

---

The District does not collect data on LGBTQ youth, so there is no way to know what portion of FCUSD students identify as LGBTQ.

Comments regarding question 19:

---

5 students identified represent number of youth offered the opportunity to participate in Smokeless Schools Days as an alternative to suspension (they were found in violation of our policy). (The number of students served is actually greater since FCUSD did voluntary participation in the Smokeless School Days curriculum as a proactive readiness for cessation strategy. Thus a number of students elected to participate in the workshops as a result of outreach extended by school staff (teachers, principal, Smokeless School Days Site Facilitator (s))
