2011/12 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 2:

PYLUSD was using Project Alert for the middle school and Project TND for high school students. PYLUSD was funded in Jan. 2012 from the TUPE grant and thus

Comments regarding question 4:

PYLUSD was not funded for the grant until Jan 2012. Material is now ordered, teachers have had an in-service on the material and we are set to start the programs in the fall of 2012. For the 11/12 school year, instruction continued in high school health and middle school physical education classes as this has been our current practice. We had 6748 student between grades 6th and 9th participate in Health/PE classes and the instructor discussed lifestyle during class. Instructors discuss the value of not using tobacco products to lead a healthy lifestyle.

Comments regarding question 6:

None

2011/12 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 9:

PYLUSD did not received funding until January and information was not yet disseminated to the school sites to begin non-curricula activities that were projected from the previous year. However, PYLUSD does participate in RRW and we were able to start a group involved with Youth Quest. Four students an an instructor participated in YQ in Sacramento.

Comments regarding question 14:

PYLUSD was not funded until January of 2012 thus new programs were not begun prior to that date. Fall of 2012 and Spring 2013 our numbers of students projected and participating will narrow.

Comments regarding question 17:

Four students participated in Youth Quest this school year. Once our material is in place and instructors begin to fully implement Project Alert and TND our margins for projected and participating students will narrow.

Comments regarding question 19:

None

Comments regarding question 22:

Signage for the helpline is to be visible in all the counselors' offices and school "nurses" rooms at all middle and high schools. PYLUSD as stated in answer 20 was bale to begin a TUPP where 29 students were served.

2011/12 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 25:

Due to budget cuts in the state, PYLUSD out of necessity has to discontinue our Teen Parenting program that was offered at a central site for our students. Students that attended that program were easily identified and served. Now, our students that are pregnant or parents attend classes at all of our traditional sites. Thirteen students that have been identified as pregnant or parents while attending our schools were referred to a county program (ACCESS).

Comments regarding question 27:

13 teachers were trained for Project Alert and Project TND. These teachers are health and PE instructors at the middle and high schools. Currently, educators in health and PE discuss the ill-effects of tobacco use.

2011/12 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 30 and 31:

During RRW, all the schools participating have signage and information on school calendars that display the week that the schools will be participating. Most signage that touts RRW also contains language on the purpose and/or goal of the program. This year, four students participated in Youth Quest with CYAN. Parent communication is given in the form of participation slips and website information.

Comments regarding question 33:

PYLUSD collaborates with our local public health agency, Anaheim Medical Center implementing interventions at the high school and middle schools.
