# 2011/12 Tobacco-Use Prevention Education (T.U.P.E.) Competitive Grant Annual Report

Comments regarding question 2:

As per our original grant application, we are continuing to use the Too Good for Drugs curriculum. Our data indicates that it is effective with our student population. It is likely that we will pilot a different curriculum with some of our staff/students in 2012-13.

Comments regarding question 4:

Our classes at these grade levels have grown.

Comments regarding question 6:

Comments regarding question 9:

None

Comments regarding question 14:

Our numbers regarding youth advocacy was very high this year, and will be in 2012-13, as the local cities are examining both second-hand smoke protections (policies and ordinances), as well as retailer licensing. Our students have attended trainings, met with City/Town staff, and presented at local Council meetings.

Comments regarding question 17:

Students in our school district are invited to participate in any/all programs. However, when they register to participate in the advocacy and peer education work, we do not specifically ask questions about sexual orientation and/or socio economic status. I would be interested to hear how other LEAs are able to track this information.

Comments regarding question 19:

Two students, and their families, opted out of our TEG services.

Comments regarding question 22:

Some students were offered TAP, but chose not to participate. As we reached the end of the school year, three of the students who opted out of the program saw the successes of their peers who had participated and requested spaces in our fall TAP.
